

RED BACK

WAX PAN SEAL

Repair leaky toilets without removing the pan

RED BACK

WAX PAN SEAL

- Moulded to shape and ready to use
- Suitable for "S" or "P" trap pans
- Remains flexible

HOW TO INSTALL

1
Cut and remove leaking pan collar rubber.

2
Remove wax seal from plastic mould.

3
Cut and insert wax seal into pan collar, push in and smooth to shape.

4
Clean off excess wax with Silicone CleanUp or suitable solvent.
